PROGRESS IN NEW JERSEY.

The Newark Turnpike Free Bridge Movemen

Successful.

For two years past a movement has been kept alive in Newark baving for its object the abolishment of tolls on the bridge crossing the Passaic river between Newark and Kearny township. At the last session of the Legislature a measure was John's Church, Newark, N. J., Mr. John Moore, of New York, to Minnis Musgrave, daughter of Francis T. Harding, Esq., of Woodside, Newark, ROPKE—HERMAN.—On Sunday, June 18, by the parents, Mr. Henry C. Ropke to Miss Kittle Herman. No cards.

Died.

Barrett.—At West New Brighton, S. I., on Thursday, June 15, Mildred Barrett, aged 11 months and Lucy Mildred Barrett, aged 11 months and 8 days.

The last session of the Legislature a measure was passed providing for the appointment of a set of commissioners with power to purchase the said bridge in behalf of the two counties of Hudson and Passaic. The price asked for the bridge by the owners, the Camden and Amboy monopoly that was, was \$106,00. The Commissioners regarded this as an extravagant price. They held several meetings, but it was not till the holding of one yesterday than the purchase was effected. There were present Beach Vanderpool. Nehemilah Perry, Isaac Van Wagenen, A. L. Dennis, Thomas E. Bray, Isaac W. Scudder, Whiliam H. McClave and Martin A. Howell, Mr. John Van Vorst, one of the Missain Passain Passa Scudder, William H. McClave and Martin A. Howell. Mr. John Van Vorst, one of the commissioners, was absent. Mr. Van Wagenen, announced that the price agreed to be paid was only \$70,900. This was agreed to, and all that is now to be done is to get a deed from the monopoly owners. This accomplished the bridge will pass into possession of the two counties and be made free forever. The counties will equally share the cost, some \$10,000 has been expended repairing the bridge. The income from it was about \$15,000 per announ. According to this the commissionors made a close bargain.

ATTEMPTED ROBBERY AT WEEHAWKEN, N. J.

On Saturday afternoon a vouth, named Spencer Green, accompanied by his brother, crossed on the Weehawken terryboat from New York, and were wandering through Weehawken, when three noto-rious characters, named John Bogardus, John Shaw rious characters, named John Bogardus, John Shaw and Paddy Murphy, accosted them, and proceeded to pull the gold buttons from their breasts. Green drew forth a pistol to defend himself, but Murphy wrested it from him. At this juncture constable Donahoe arrived, and arrested Bogardus and Shaw, whom he handcuffed. He then pursued Murphy, when the latter opened fire on him with the pistol, but the bullets missed their aim. Donahoe also fired, but without effect, so that Murphy escaped. The other two robbers were taken peofore a justice of the peace and committed to await trial. Murphy is a well known desperado, who has spent most of his time in Jersey prisons.

DRY GOODS MARKET.

The dry goods market has been fairly active during the past week, the advance in cotton goods not pre-venting a very general distribution. For woollen goods there has only been moderate inquiry, many buyers believing that there will be lower prices as the season advances, a belief not shared in by manufacturers and agents.

COTTON GOODS.

The market is firm, with no surplus in agents' bands and a good trade doing by jobbers. Fine grades of bleached sheetings and shirtings are in fair movement, but are not as active as the lower grades, many of these being very scarce. The following are some of the changes made within the

week:—
Davol, 4-4, 18½c.; Pocasset Canoe, 13½c; do. F. 9c.; Mount Hope, 13c.; Pepperell, 6-4, 25c.; do. 7-4, 27½c.; do. 8-4, 30c.; do. 9-4, 35c.; do. 10-4, 40c.; do. 11-4, 40c.; do. 5-4, 20c.; do. A., 19c.; do. 8-4, 2½c.; do. 9-4, 18c.; do. 5-4, 20c.; do. A., 19c.; do. 8-4, 2½c.; do. 9-4, 18c.; Chapman, 4-4, 16c.; Clinton, CCC, 15c.; Canonicus, 14c.; Hanover, 11c.; Chester, 7-8, 10c.; Clipper, 3-4, 7c.; Methuen, 3-4, 7½c.

The following changes have been made in brown sheetings and shirtugs:—Androscorgin 9-4, 32½c.; do. 10-4, 37c.; Pepperell 7-4, 26c.; do. 8-4, 27½c.; do. 9-4, 30c.; do. 10-4, 35c.; id. 11-4, 40c.; do. 12-4, 45c.; Mount Hope, 12½c.; Indian Head standard, 13c.; brown jeans, 14c.

Ticks and denims have been inquired for, with prices at from 1 to 1½c.

Drills are well sold up and prices are unchanged. Corset jeans and satteens are closely sold and are in demand.

Glazed cambrics show an advance on leading tickets. Crasnes are one cent in advance. Frinting clotus have improved during the week. The market is strong, with an upward tendency.

Prints have osen fairly active. Garner, Oriental, American and Spragues are ½c. higher on all dark work and staples. Amoskeag and Arnolds are both advanced to 7c. Light grounds are still to be had at the old rates.

WOOLEN GOODS.

advanced to 7c. Light grounds are still to be had at the old rates.

WOOLLEN GOODS.

For several reasons woollen goods have not heen so active for the past week.

Blankets are in good movement, considerable quantities baving changed hands. Prices are firm, with a probable advance.

CARPETS.

Considerable life has been given to the carpet trade by Continental buyers in the English market. The domestic market is firm and the supply limited on account of scarcity of stock.

The imports of foreign dry goods for the week ending June 18 amount to \$1.698.459, figures largely in excess of the amount for the corresponding time for the past two years.

The summer dulness has set in upon most departments of city trade, although peculiar circumstances have occasioned considerable activity in some branches, as for instance in the cotton market, which has been the scene of pretty large transacgrowing crop. So far as trade in general is concerned it seems as if it were undergoing a In olden times, before the telegraph and railroads gave us prompt communication, business was spun buyers all come in a crowd in the spring and in the fall, make their purchases and go home. Their have a few months of intense activity, the packing of goods often extending far into the night, and then all is over until the next season. Something of this is also beginning to be a regular thing in

THE WALL STREET MARKETS. In the spring there is a general demand for stocks. The season is one in which people buy. When all the purchases are made the stock market becomes quired for moving the Southern and Western crops and for active use in mercantile pursuits generally, the idle capital employed at the Stock Exchange is withdrawn, and the selling period for stocks arrives. Doubtless the community are to be congratulated for this flood and ebb tide in business. The division of the seasons makes the summer a hotiday, which can be beneficially availed of for the recruitment of the health of those who, with the peculiar zeal of American business men. would toll incessantly were their business enough to keep them constantly engaged.

The week on the Stock Exchange and in Wall street generally has been one of great dulness, the natural tendency to inactivity being assisted by the withdrawal of many dealers to the series of races at Jerome Park. Many brokers complain that the dulness was as great as they have ever experienced. Prices, as a result of this lack of decline in some instances was quite marked. Taking the active speculative list the decline ranged from one to four per cent. The course of the market tempted operators on the short side of the account, but these were conducted with and abundance of money and the reputed power of the combinations interested on the "bull" side. In fact, the "short" interest betrayed its anxiety at the close of the week, when, under a general demand for stock to cover contracts for delivery, prices rose one-half to one and a half per

The gold market, after a faint prosecution of the "buil" movement alluded to last week, relapsed into dniness also, and is now without any speculative interest beyond what exists on mercantile account, the "twisting" of which was avowedly the object of

the recent "buil' effort.
Government bonds showed considerable animation toward the close, on account of the approach of interest day. Many European investors make it a rule to convert their coupons into bonds, and each interest period shows, therefore, a good inquiry for

this investment.

The Southern State bonds were active and higher in the Tennessees, which advanced to 73, but were otherwise only steady, but strong.

Money was easy, in face of a large demand from the rural districts, in connection with the marketing of the "wool clip." The market for commercial paper was quiet, with prime names quoted 434 a 6 per cent discount.

The early manipulation of the gold market unsettled and lowered the foreign exchanges; but, on the disappearance of this induence, sterling advanced and closed 110% a 110% for prime bankers' sixty day bills, and 110% a 110% for sight. THE BANK STATEMENT.

The weekly statement of the associated banks proves quite favorable, thanks to the pool in the Gold Room, who, by repressing the shipment of exhibit in the way of reserve. The gain in legal tenders and specie amounts to about \$2,000,000, and as the set-off to this is only twenty-five per cent of an increase of about \$1,300,000 in liabilities, the surplus reserve of the banks is increased \$1,716,404, leaving them with a total of \$16,684,312 in excess of the reserve required by law to be kept on hand. The statement compares with its predecessor as fol-

RAILWAY EARNINGS.

The most conspicuous increase in the gross traffic in the month of May, compared with the same month of last year, is snown by the Central Pactific Railroad—\$149,041, and by the Toledo, Wabash and Western—\$112,117. There is no uniform increase in earnings, however, and several of the old roads show a decrease of more or less importance. It is frequently stated on the stock market that a particular road has made a very large increase in its earnings during a certain month, but as the statements are always made in regard to those companies which do not make public their earnings, there is httle reliance to be placed on them. The fact of an increase in one month, if true, would have httle significance, as it would show nothing unless taken in connection with other months and with the operating expenses. For the first five months of the year rainoad earnings generally compare favorably enough with last year; but there is no great increase in traffic, and the earnings or mile on those roads which have added materially to their mileage are in some cases not as large as in 1870. The general

tendency of mirrord earnings in this country is inquestionably towards a steady increase, but
this increase must be gradual and cannot be expected to proceed by strides, not to be
shown every year without some intervening periods
of decreased traffic. In the year 1869 railroads were
generally prosperous and increased their gross
earnings considerably, but since that time there
has been no uniform increase on the Western roads,
and where heavy profits have been shown they have
in most cases been the result of an economical administration and a large saving in operating expenses.—Financial Chronicle, Saturday.
